

RI Freshwater Forum

April 9, 2014 ● 7-9 pm

Room South 218 ● New England Institute of Technology

1 New England Tech Blvd ● East Greenwich, RI ● 02818

We invite **YOU** to join other lake association and club members, volunteer monitors, fishermen, boaters, canoers, kayakers and other citizens concerned with our critical freshwater resources on **Wednesday, April 9th, 2014**. Guest speaker **Janet Coit, Director of the RI Department of Environmental Management (DEM)** will discuss DEM strategic priorities and current lake management issues in RI. A question and answer period will follow. This is a great opportunity to meet and interact with Director Coit and other freshwater stewards to discuss our vital fresh water resources.

This event is hosted by Save The Lakes (STL), an alliance of individuals and associations dedicated to protecting, improving and preserving Rhode Island's fresh water bodies for future generations. **Light refreshments will be served**. Local lake associations and other organizations are invited to bring exhibits and materials to share. This is a great opportunity to network with community "experts."

Plenty of **free parking is available in the back of the building, near the back entrance**. There is also no charge for this forum, so please bring your neighbors and friends – anyone who enjoys RI's lakes, ponds, rivers and streams!
